COMMERCIAL DISPLAY

M3204C

32"

N.B. Stand not included.

IDEAL FOR PUBLIC INFORMATION DISPLAY

The M04C series of Widescreen LCD Monitors include a portrait or landscape option. The anti-glare screen ensures great viewing quality and the monitors can be used as part of a 5 x 5 video wall. The exclusive public display panel features proven and trusted LG technology and has great resistance to image retention or sticking, making for an extremely robust display solution. Speakers are optional for expansive multimedia possibilities. Advanced connectivity is complemented by ez-Net Manager, which is high performance software allowing control of the screen over a LAN. This is multi functional and especially useful for diagnostics. The M04C series monitors also have the additional feature of USB playback, and an impressively fast response time. They are also compatible with the Internal NC2000 Supersign player.
